 $Table \ 1. \ Identify-Identification \ of \ PLA/Priority \ Schools: \ Closed \ (by \ district \ decision), \ Released, \ and \ Retained$ 

During the five-year period starting in 2010 there have been 331 schools identified as Persistently Lowest Achieving (PLA) or Priority. The PLA metric was used in both 2010 and 2011. Since 2012 the Top-to-Bottom metric has been implemented. Schools remain in their respective cohorts for at least four years.

The number of schools that will be released from the 2012, 2013, and 2014 Cohorts will depend on the schools' performance on all exit criteria. Schools must meet all the following three exit criteria:

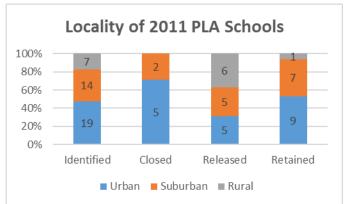

- 1. **Top-to-Bottom Requirement (TTB)**: The school must have a TTB percentile rank of 5 or higher.
- 2. <u>Annual Measurable Objective (AMOs</u>): The school must meet its AMOs for both math and reading in the all-students subgroup.
- 3. <u>Assessment Participation Requirement</u>: The school must have at least a 95% participation rate on all required state assessments.

<sup>&</sup>lt;sup>1</sup> This includes one Shared Educational Entity (SEE) that was not tabulated in the original release.

<sup>&</sup>lt;sup>2</sup> This includes two buildings which are special education centers.

Chart 1: The 2010 and 2011 Cohorts disaggregated by current status and locality type.

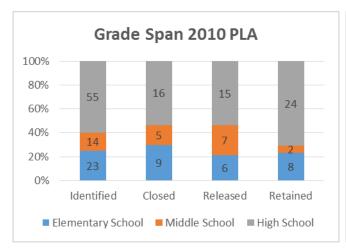

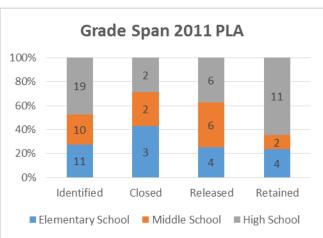

# **Data Points**

- 79% of the schools retained in the 2010 Cohort are in urban areas.
- 68% of schools named in 2010 were urban.
- In the 2011 cohort 48% of the schools identified are urban, and make up 53% of those retained.
- Of the schools retained in the 2010 Cohort none were rural, while in the 2011 Cohort only 6% of schools retained were rural.
- The majority of closed schools in both the 2010 and 2011 cohorts were urban.

**Chart 2: School Grade Spans** 

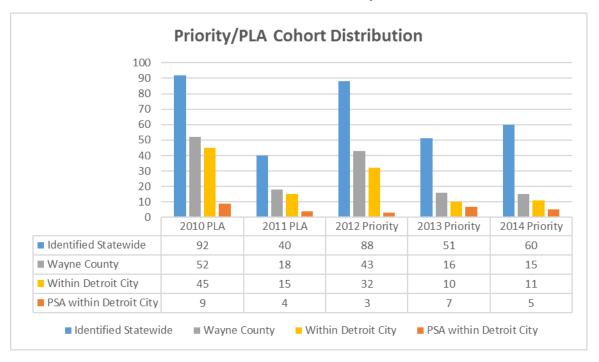

### **Data Points**

- In 2010, 60% of identified schools were high schools, while in 2011 this changed to 48%.
- A higher percentage of high schools were identified in both cohorts compared to elementary and middle school.
- More analysis is needed to understand rationale and statistical variation.

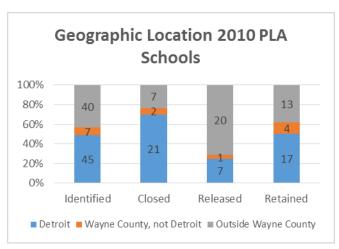

Chart 3: Each of the five cohorts disaggregated by geographical locations of Wayne County, the city of Detroit and Public School Academies (PSA) within the city of Detroit.

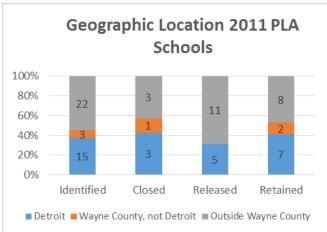

# **Data Points**

- Of counties statewide, Wayne County makes up the greatest percentage of schools that were identified in each cohort.
- A majority of schools identified as Priority in Wayne County are within the city of Detroit.

Chart 4: The 2010 and 2011 Cohorts disaggregated by current status and geographic location.

### **Data Points**

- In 2010, most school that were closed by district decision were within Detroit.
- In 2011 most identified schools were outside of Wayne County.
- Most of the released schools in both cohorts were outside of Wayne County.
